ALTUSGULF.COM

Complete Mobile App Screens · 36 Screens

FOUR EXPERIENCES · ONE PLATFORM
BILINGUAL BY DESIGN · WHITE-LABEL PER PROPERTY

Every screen in the Altus Gulf mobile experience, end to end — from first launch to enterprise administration. No screen is skipped: onboarding and access, the full learner journey, property-level management, and Altus central admin. Enhanced with offline learning, AI assistance, QR attendance, dark mode and multilingual English / Arabic support.

Knowledge turns service into *extraordinary experiences.*

A

AI-Assisted Learning

A governed AI assistant answers training questions, recommends next lessons and guides learners in English or Arabic — always on-brand.

O

Offline Anywhere

Download courses, SOPs and certificates. Learning continues on the floor, in the back-of-house, and with no connection.

Q

QR Attendance & Verification

Scan to confirm training attendance and verify certificates instantly — audit-ready records for every property.

S

Streaks & Reminders

Learning streaks, push reminders and saved favorites build daily habits. Smart search surfaces the right SOP in seconds.

W

White-label per Property

Every hotel brand gets its own look and feel — logos, colors and content — while Altus manages it from one central console.

M

Measurable Performance

Cross-property analytics, competency reports and dashboards tie learning directly to operational KPIs and guest experience.
