Color Proportion Guide

THE 60 / 25 / 10 / 5 RULE

60% — Executive Ivory	25% — Navy	10%	5%
-----------------------	------------	-----	----

60% Executive Ivory (backgrounds, white space) | 25% Obsidian Navy (anchoring authority elements) | 10% Charcoal (body text) | 5% Gold (accent lines, borders — never fill)

RULE	SPECIFICATION	RATIONALE
Gold Usage	Accent only. Max 5%. Never full background.	Overuse destroys the premium signal. Gold derives power from scarcity.
Navy as Anchor	Must anchor every high-authority layout: headers, cover slides, footers.	Establishes trust, authority, and executive intelligence at first glance.
Teal for Digital	Reserved for AI content, digital transformation, and tech-forward messaging.	Creates clear brand segmentation between the two service divisions.
White Space Priority	Minimum 30% breathing room on any page.	Premium brands communicate through restraint, not saturation.
Chart Colors	Secondary palette only. No rainbow or neon fills.	Maintains analytical credibility and visual coherence.
Ivory Backgrounds	Default document background. Never plain white in formal collateral.	Signals warmth, sophistication, and physical luxury materials.
