A Message from the Founders

Global commerce is evolving at an unprecedented pace, and legacy operating frameworks are no longer sufficient to secure market leadership. As the future architecture of business takes shape, one truth stands out: genuine excellence requires the seamless integration of human capital and technological innovation.

We founded Altus Advisory to close a structural gap in the market. Asset owners and senior leadership teams are too often forced to choose between conventional hospitality operators' consultants and standalone digital agencies. Altus occupies the precise, multidisciplinary intersection of the two.

We act as strategic fiduciaries. We replace intuition with advanced empirical analytics, engineer measurable growth, and convert physical assets into high-yield, digital-first institutions. That conviction now extends into product: our proprietary altus Hospitality Knowledge & Performance platform institutionalises the very expertise we advise with.

Our promise is simple. We stand beside you, shoulder to shoulder, from the first blueprint through sustained execution, and beyond it, until your organisation reaches full operational consistency, stability, and confidence. The engagement may end; the alliance does not.

//

Commercial considerations are a reality of business, but for us they come second. What comes first is making certain that you become a success story.

Company Overview

Altus Advisory is a specialised strategy consultancy built on rigorous international standards. We operate where elite hospitality operations meet advanced business intelligence, serving asset owners, investors, and ambitious enterprises across Saudi Arabia, the GCC, and global markets.

OUR VISION

To be the most trusted strategic catalyst for hospitality excellence and enterprise transformation: championing bold founders, scaling enterprises, and visionary owners as they define the future of business performance.

OUR MISSION

To empower asset owners, investors, and business leaders with executable strategy, advanced technology infrastructure, and human-capital frameworks: driving sustainable revenue growth, operational sovereignty, and uncompromising experiences across every physical and digital touchpoint.

OUR PURPOSE

The beating heart of our mission is to champion start-ups, scaling enterprises, and every investor or entrepreneur with a bold ambition, acting as the trusted strategic fiduciary that converts aspiration into tangible, high-yield reality across the GCC and beyond.

CORE PHILOSOPHY

Fiduciary First

We sit on the owner's side of the table: independent, accountable, and measured against your returns, not our billable hours.

Evidence over Intuition

Every recommendation is grounded in empirical analytics, financial modelling, and field-tested operating discipline.

Partnership beyond the Mandate

Engagements evolve into enduring alliances. We remain invested in our clients' trajectory long after delivery.

Two synergistic practices, one integrated house: **Hospitality Solutions** and **Business Growth Solutions**, cross-pollinating operational mastery with digital sophistication.

Why Altus Advisory

The consulting landscape too often operates in silos: traditional operations on one side, digital transformation on the other. Altus was engineered to close that structural gap with a single, integrated mandate.

Owner-Side Advisory

Independent, client-side oversight across the full asset lifecycle: protecting budgets, governing HMAs, and safeguarding investor interests against operator and contractor drift.

Operator-Grade Depth

Leadership forged inside Marriott, IHG, Starwood, and Accor systems. 60+ combined years of P&L accountability, not theoretical frameworks.

A Dual-Discipline Model

Elite hospitality operations fused with AI-enabled commercial intelligence, engineering growth across both domains simultaneously.

Regional Fluency, Global Standards

Deep-rooted Saudi and GCC market knowledge, bilingual delivery, and Tier-1 international benchmarks applied without dilution.

Evidence over Intuition

Empirical analytics, financial modelling, and Six Sigma discipline replace opinion. Every recommendation is measurable and auditable.

An Enduring Partnership

Hands-on guidance from first blueprint to sustained execution: a relationship that outlives the engagement itself.

PROPRIETARY PLATFORM IP

NEW

altus Hospitality Knowledge & Performance

The differentiator no conventional consultancy carries: a white-label digital platform that converts our operating standards into structured learning, knowledge management, and measurable performance for every client property. See pages 07 and 08.

UNIQUE VALUE PROPOSITION

High-level hospitality operational excellence, integrated with AI-driven revenue intelligence: delivering measurable impact through strategic clarity, operational rigour, and continuous digital innovation.

Hospitality Solutions

Dedicated to the physical asset, the guest experience, and the operating engine of hospitality enterprises: structural, hands-on intervention that maximises returns.

Hotel Development & Owner Representation

Independent client-side oversight across the project lifecycle. We act as the pivotal link between investors and contractors: protecting budgets, preventing design deficiencies, governing HMAs, and mitigating contractor claims through handover.

Operations Optimisation & Pre-Opening Support

Deep diagnostic assessments and restructuring of day-to-day operations. Comprehensive project-management frameworks deliver flawless commercial launches, mitigate delays, and secure revenue generation from day one.

Feasibility Studies & Investment Validation

Rigorous financial modelling, macro supply-and-demand analysis, and empirical ROI forecasting: giving institutional investors confidence that capital allocated to new hospitality assets is defensible and de-risked.

Guest Experience Enhancement & Quality Audits

Systematic elevation of physical and digital touchpoints to global standards: exacting brand-compliance audits, safety-procedure remediation, and mystery-guest programmes.

Commercial Performance Improvement

Holistic alignment of commercial sales, digital marketing, and internal operations. Offensive cost-containment frameworks and distribution-channel analytics maximise GOPPAR across the asset.

Engineering excellence. Delivering growth, from blueprint to full operational maturity.

Business Growth Solutions

The client-obsessed rigour of luxury hospitality, applied to the wider corporate landscape, for enterprises scaling regionally and globally.

Strategic Planning & Organisational Restructuring

Three-to-five-year strategic roadmaps and redefined corporate hierarchies: reducing administrative drag, increasing agility, and embedding change-management protocols aligned with labour regulation.

Revenue Optimisation & Applied AI

Dynamic pricing matrices, predictive yield management, and total revenue-capture systems, alongside enterprise AI-readiness assessments and phased technology deployment roadmaps.

Digital Transformation

End-to-end modernisation of internal technology stacks, CRM architecture, cloud-migration strategy, and integrated software blueprints: lowering long-run IT overheads and strengthening data security.

Leadership & Capability Development

Bespoke one-to-one executive coaching, leadership-competency frameworks, and corporate succession planning: building resilient executive layers capable of navigating complex transformation.

Investment Appraisal & M&A Due Diligence

Exacting commercial due diligence for asset acquisitions, pre-acquisition valuation reporting, operational-synergy modelling, and post-merger integration plans that protect invested capital.

Where hospitality meets intelligence: data-driven strategy, human-centred excellence.

altus Hospitality

Knowledge & Performance

A strategic Altus product that converts three decades of hotel expertise and operating standards into a structured digital system for learning, knowledge management, and performance measurement. Purpose-built for independent hotels, serviced apartments, and SME establishments across Saudi Arabia and the Arab region that need practical, standards-based training without the cost and complexity of global-chain systems.

THE PRODUCT PROMISE

"The right knowledge, to the right person, at the right time, with clear evidence of learning and improvement."

UNIFIED PLATFORM ARCHITECTURE: FIVE INTEGRATED LAYERS

1

Product & Experience

Clear scope and a consistent experience across information architecture and UX.

2

Knowledge & Learning

Knowledge architecture, master curriculum, learning engine, assessment and certification.

3

Intelligence & Performance

Knowledge engine, smart search, governed AI assistant, and live performance indicators.

4

Technical Operations

Database, identity and permissions, per-property customisation, admin and reporting.

5

Governance & Growth

Security and privacy, version control, product roadmap, web and mobile channels.

MASTER CURRICULUM: TEN PROFESSIONAL DOMAINS

Hotel Fundamentals

Front Office

Housekeeping

Food & Beverage

Kitchen

Sales & Marketing

Revenue & Reservations

Guest Experience

Quality & Audit

Security & Safety

Structured content model: Professional Domain → Track → Module → Lesson → Assessment & Certification

Bilingual by design

Arabic and English, one experience

White-label per property

Each establishment's own brand

Governed AI assistant

Answers only from approved content

Evidence of progress

Dashboards, reports, certification

Why No Comparable Firm Offers This

Consultancies hand over reports. Software vendors hand over tools. altus Hospitality Knowledge & Performance fuses the two: our consulting IP institutionalised inside a living platform that keeps compounding value for the client long after the mandate.

DIMENSION	TYPICAL CONSULTANCY	GENERIC LMS / TRAINING VENDOR	ALTUS HK&P
Source of content	External frameworks, generic decks	Off-the-shelf libraries, no hotel standards	Three decades of operator-grade SOPs and field-tested standards
After the engagement	Knowledge leaves with the consultants	Content ages without ownership	Knowledge stays institutionalised, versioned, and continuously updated
Fit to the property	One-size recommendations	No customisation, no Arabic depth	White-label, bilingual, tailored per property, role, and standard
Proof of adoption	None once the report is delivered	Completion clicks, not competence	Assessment, certification, and competency dashboards per employee
Intelligence	Static documents	Keyword search at best	Governed AI assistant answering strictly from approved content

MEASURABLE VALUE FOR OWNERS AND OPERATORS

>40%

faster onboarding readiness

New hires productive from the first days; openings ramp faster

100%

turnover immunity

Operational knowledge remains a digital asset of the institution, not of departing staff

100s

of training hours saved

Internally developed digital content replaces costly repetitive classroom cycles

GOP↑

guest satisfaction & profit

Digitally enabled staff resolve guest needs faster, lifting scores and financial performance

ONE PLATFORM, THREE EXPERIENCES

The Learner

Role-based plan, short applied lessons, assessment, live progress, and a completion certificate.

Property Management

Assign tracks, follow team completion, read competency reports, and apply the property's own brand.

The Altus Team

Content management, quality control, versioning, client administration, and cross-property analytics.

From advice that ends at the report, to capability that lives inside the client's own institution.

Industries We Serve

One operating philosophy, applied across the sectors driving the Kingdom's transformation, wherever service, asset performance, and guest experience decide the outcome.

Hotels

Luxury Resorts

Tourism & Destinations

Real Estate

Government & PSAs

Mixed-Use Developments

Entertainment

Healthcare Hospitality

Retail & F&B

Sports & Events

Investment & PE

Family Offices

Committed at every scale: from a boutique independent property taking its first steps, to national portfolios and global enterprises. The same exacting care, dedication, and strategic rigour.

The Altus Ascent™ Framework

A six-stage operating discipline that carries every mandate from first diagnostic to institutionalised, self-sustaining performance, with defined gates, deliverables, and owner sign-off at each stage.

1

DISCOVER

Immersive diagnostic of the asset, market, and organisation. Data rooms, field audits, stakeholder interviews, and competitive benchmarking establish the factual baseline.

2

ASSESS

Gap analysis against global standards and investor objectives. Financial modelling, risk mapping, and opportunity sizing convert findings into a quantified case for change.

3

DESIGN

The strategic blueprint: operating model, commercial architecture, organisational structure, and technology roadmap, each with owners, milestones, and measurable targets.

4

TRANSFORM

Hands-on, shoulder-to-shoulder execution. We embed alongside client teams to implement, coach, and course-correct, not observe from a distance.

5

OPTIMISE

Performance instrumentation, dashboarding, and iterative refinement. Pricing, cost, quality, and guest-experience levers tuned against live data.

6

SCALE

Institutionalisation and growth: playbooks, capability transfer, and governance handover so momentum compounds long after the engagement concludes.

Precision in planning. Excellence in execution.

Strategic Frameworks

Two proprietary lenses through which Altus reads an asset: locating it on the performance map, then engineering the route to compounding returns.

A. THE ALTUS PERFORMANCE MATRIX™

Our mandate: move every client asset up and to the right, into the Altus Zone.

B. THE GOPPAR VALUE STACK™

Institutional Capabilities

Eight integrated capability sets, deployed selectively per mandate, always in combination, never in isolation.

Operational

SOP architecture, quality systems, pre-opening readiness, service-delivery engineering across rooms, F&B, and support functions.

Commercial

Revenue strategy, sales-force effectiveness, distribution and channel economics, brand and marketing performance.

Financial

P&L restructuring, cost-containment frameworks, budgeting and forecasting discipline, capex governance and ROI tracking.

Investment

Feasibility validation, underwriting support, due diligence, valuation and synergy modelling for acquisitions and development.

Digital & AI

AI-readiness assessment, dynamic pricing, predictive analytics, CRM and technology-stack modernisation, plus the altus HK&P platform.

Organisational

Structure redesign, role clarity, succession planning, leadership coaching, and capability-transfer programmes.

Governance

HMA oversight, owner and operator alignment, performance-clause enforcement, reporting and board-level assurance.

Transformation

Turnaround management, change protocols, post-merger integration, and enterprise-wide performance programmes.

Every capability is delivered by principals, never delegated to junior benches.

Engineered for Saudi Vision 2030

Vision 2030 is not a blueprint of the future. It is a live, global-scale transformation. Altus Advisory has aligned its mission and service architecture to directly support the Kingdom's core pillars, so our partners do not merely participate in this historic growth: they lead it.

PILLAR I

Powering the Tourism & Hospitality Surge

With the Kingdom targeting 150 million annual visits by 2030, we act as strategic fiduciary to developers and investors: owner representation, feasibility validation, and operational optimisation that deliver new hotel assets on time, on budget, and engineered for GOP from day one.

PILLAR II

Advancing Digital & AI Leadership

Supporting a digitally enabled society and tech-forward economy: AI-based dynamic pricing, predictive revenue management, and advanced digital marketing. Our altus Hospitality Knowledge & Performance platform replaces paper-based procedures with a governed digital system that embeds transparency and a culture of continuous improvement.

PILLAR III

Empowering Saudi Human Capital

In step with Saudization and youth-empowerment goals, our executive coaching, leadership-competency frameworks, and knowledge-transfer programmes build a globally competitive class of Saudi executives, now delivered at scale through the platform's bilingual digital academy, learning paths, and certification.

PILLAR IV

Enabling SMEs, Start-ups & Bold Entrepreneurs

Vision 2030 prioritises SME contribution to GDP. We bring Tier-1 consulting standards, typically reserved for conglomerates, to Saudi start-ups and scale-ups, and we priced our platform deliberately for independent hotels and SME establishments, engineering resilience and growth from day one.

OUR COMMITMENT TO THE KINGDOM

We regard Vision 2030 as a shared national responsibility. Working at the meeting point of elite hospitality operations and advanced business intelligence, and investing in proprietary Saudi-focused digital products, we ensure our partners in the Kingdom are fully equipped to shape the future of their sectors.

Market Opportunity

The Kingdom is executing the most ambitious hospitality build-out in the world. The numbers define both the scale of the opportunity and the premium on disciplined, owner-side execution.

122M

FLAGSHIP RESORT • EGYPT • TURNAROUND

Flagship Resort Turnaround & Sustained Market Leadership

CLIENT PROFILE

A 300+ key branded beachfront resort in a fiercely competitive leisure market, underperforming its comp set on rate and guest sentiment.

CHALLENGE

Stagnant RevPAR, slipping guest-satisfaction scores, and margin erosion despite strong location fundamentals.

APPROACH

Full commercial re-engineering: pricing architecture, channel mix, service-culture programme, and Six Sigma-led guest-journey redesign with disciplined cost governance.

RESULTS

The property rose to No. 1 in its competitive set and held the position for six consecutive years, with structural GOP margin expansion.

+25%

RevPAR growth

+30%

guest satisfaction

Islam Mahrous

CO-FOUNDER: BRAND, COMMERCIAL STRATEGY & AI-DRIVEN DIGITAL TRANSFORMATION

Islam is the firm's growth innovator and its forward-looking technological edge: the vital bridge between traditional business models and the demands of the modern era. Across three decades of multi-brand leadership with Marriott, IHG, Starwood, and Accor, and independent asset management across Saudi Arabia, the GCC, Egypt, and North Africa, he has proven to entrepreneurs and investors alike that digital modernisation and brand clarity are direct, measurable drivers of enterprise valuation. He is the product architect of the altus Hospitality Knowledge & Performance platform.

TRACK RECORD

- 30+ years of multi-brand hospitality leadership across the GCC, Egypt, and North Africa: Marriott, IHG, Starwood, and Accor systems.
- Led a flagship branded resort to No. 1 in Marriott's Egypt competitive set for six consecutive years: +25% RevPAR and +30% guest satisfaction with sustained GOP margin expansion.
- Mandated by Marriott International to lead operational excellence across 19 hotels in Egypt (3,000+ rooms), lifting guest satisfaction 10% and F&B revenue 8% within 18 months.
- Directed five pre-opening projects across Saudi Arabia, Libya, Egypt, and West Africa: 1,700+ rooms delivered at 90–95% operational readiness.
- Six Sigma Black Belt: four certified DMAIC projects, including a guest-journey redesign saving USD 340K annually.
- Oversaw a USD 10M+ capital renovation portfolio, delivering 7–20% cost savings with zero guest-experience disruption.

RECOGNITION

Marriott GM Award for Customer Service Excellence: MEA, 2017 & 2022

Starwood Best Operational Innovation Manager, 2007

Hossam Smadi

CO-FOUNDER: HOSPITALITY OPERATIONS & ASSET MANAGEMENT

Hossam is the firm's operational architect. With deep expertise in the operating complexities of international hospitality, his focus is converting physical assets into high-yield, operationally flawless institutions. Across 30+ years of executive leadership in hotel operations and asset management throughout Saudi Arabia and Jordan, spanning global brands and independent groups, he ensures that high-level strategy is executed impeccably on the ground, with uncompromising adherence to quality standards.

TRACK RECORD

- 30+ years of executive leadership in hotel operations and asset management across Saudi Arabia and Jordan: global brands and independent groups.
- As General Manager, led a property from pre-opening to full operation and to the title of Best Economy Hotel in Saudi Arabia.
- Delivered the highest GOP in the Jazan region while leading Swiss Blue Hotels properties, through commercial discipline and strict cost governance.
- Successfully directed two simultaneous hotel openings in 2018, carrying both to full operation and revenue generation.
- Owner's Representative for four internationally branded Riyadh assets: Crowne Plaza Digital City, InterContinental, Hotel Indigo, and Wyndham Grand at KAFD.
- Directly governed Hotel Management Agreements (HMA), procurement and OS&E reviews, and operator building-handover processes.

RECOGNITION

Best Economy Hotel in Saudi Arabia, as General Manager

U.S. Embassy Riyadh recognition: Best Security Measures

Strategic Partnerships

Altus operates as the hub of a deliberately curated ecosystem: aligning operators, capital, technology, and government so that every mandate draws on best-in-class execution partners.

Hotel Operators & Global Brands

Working relationships across international operating systems: enabling informed HMA negotiation, brand selection, and operator performance governance on the owner's behalf.

Investors, Funds & Family Offices

Advisory alignment with institutional investors, developers, and family offices: feasibility validation, underwriting support, and asset-performance stewardship across the hold period.

Technology & Data Partners

A vetted bench of PMS, revenue-management, BI, and AI solution providers: selected per mandate on merit, never on commission, preserving full advisory independence.

Government & Development Authorities

Constructive engagement with ministries, destination authorities, and giga-project entities: aligning private asset strategy with national tourism and Vision 2030 priorities.

THE INDEPENDENCE PRINCIPLE

We hold no equity in operators, take no vendor commissions, and carry no brand allegiance. Our partnerships exist to serve one interest only: the client's. That independence is the foundation of every recommendation we make.

Our Values

Seven commitments that govern how we advise, how we execute, and how we behave when no one is watching.

Integrity

We act as true fiduciaries of client assets: realistic diagnostics, transparent ROI reporting, and advice that serves your interest even when it costs us the engagement.

Excellence

Uncompromising standards: a refusal of mediocrity through obsessive attention to execution detail and superior global benchmarks.

Innovation

Agile pursuit of digital disruption: actively seeking, testing, and integrating new capability as competitive advantage.

Hospitality

Service is our native language. The guest's experience, and the owner's return on it, sit at the centre of every decision.

Performance

Data-driven precision: intuition deliberately replaced by empirical analytics, AI, and financial modelling. Impact that is measured, not asserted.

Trust

Earned through candour, confidentiality, and consistency: the currency of every boardroom relationship we hold.

Collaboration

Human-centred empowerment: we build alongside client teams and local talent, transferring capability rather than creating dependency.

ESG & Sustainability

Sustainable performance is not a compliance exercise. It is an asset-value strategy. We embed environmental, social, and governance discipline into the operating model itself.

Governance

Transparent owner reporting, HMA and procurement integrity, anti-leakage controls, and board-grade assurance frameworks: the governance architecture that protects capital and reputation alike.

Responsible Tourism

Destination stewardship aligned with Vision 2030's regenerative tourism agenda: visitor-impact management, heritage protection, and guest experiences designed to give back more than they take.

Community & People

Saudization-first talent strategies, local supplier development, fair and dignified workplaces, and structured knowledge transfer that leaves communities stronger than we found them.

Operational Sustainability

Energy, water, and waste efficiency engineered into SOPs and capex plans: utilities intelligence and lifecycle costing that reduce footprint while expanding GOP.

Assets that respect their destination outperform those that merely occupy it.

Digital & AI

Every Altus mandate ships with an intelligence layer: the instrumentation that turns operations into evidence, and evidence into advantage.

Business Intelligence

A single source of truth across PMS, POS, channel, and financial data: unified, cleansed, and decision-ready.

Executive Dashboards

Owner- and board-grade dashboards: RevPAR, GOPPAR, pickup, sentiment, and payroll productivity in one live view.

Applied AI

Dynamic pricing matrices, predictive yield management, demand forecasting, and AI-readiness roadmaps deployed in phases.

Advanced Analytics

Channel economics, guest-sentiment mining, cost-driver analysis, and scenario modelling for capital decisions.

Performance Monitoring

Continuous KPI instrumentation with alerting: variances surfaced in days, not at month-end post-mortems.

Digital Transformation

CRM architecture, cloud migration, and integrated technology blueprints that cut long-run IT overheads.

Flagship product: *altus Hospitality Knowledge & Performance*, the platform that institutionalises this intelligence layer inside every client property (pages 07 and 08).

From gut feel to ground truth. We replace intuition with empirical analytics: deliberately, and everywhere.

Why Clients Choose Altus

A candid comparison: how the Altus model differs from conventional consulting engagements, dimension by dimension.

DIMENSION	TRADITIONAL CONSULTING	ALTUS ADVISORY
Perspective	Operator- or vendor-influenced viewpoints	Strictly owner-side, fiduciary, and independent
Delivery team	Partner sells, junior bench delivers	Principals deliver every mandate personally
Grounding	Frameworks and benchmarks from the outside	60+ years of hands-on P&L leadership inside global brands
Scope logic	Operations or digital, sold separately	One integrated mandate across operations, commercial, and AI
Evidence	Opinion-led recommendations	Empirical analytics, Six Sigma discipline, measurable KPIs
Digital enablement	Advice ends at the report	altus Hospitality Knowledge & Performance: a proprietary learning and performance platform that lives on inside the client
Engagement end	Report handover closes the file	Playbooks, capability transfer, and an enduring alliance
Regional depth	Fly-in, fly-out coverage	Riyadh-rooted, bilingual, Vision 2030-aligned by design
Fee philosophy	Billable hours as the objective	Client success first: commercial terms follow outcomes

The comparison is candid by intent: clients deserve to know exactly what they are buying.

The Altus difference in one sentence: we are measured by your returns, present at your side, and accountable for the result, not the report.

LET US SHAPE THE MARKET, TOGETHER

"The future belongs to those who prepare for it."

"We do not adapt to the market. We shape it."
